

If you are having trouble using the online forms or seeing any content in any CMA website, the following instructions should help you if you are using version 10 or 11 of Internet Explorer. These instructions will show you how to set your browser to Compatibility View. If you are already logged in when you perform these steps you may have to log back into the website.

Open Internet Explorer and in the top right corner of the page click on the gear icon.

Select **COMPATIBILITY VIEW SETTINGS**. A pop up window will open. Click **ADD** and close.
